Connecting Our Communities

**Today's library is not only about books.
It's the community's lifeline to
a world of information!**

How are We Using Libraries Today?

In our communities, we go to libraries to find jobs, create new careers, and help grow our small businesses.

We borrow books, journals, music, and movies.

We learn to use the latest technology.

We meet with groups and attend programs.

We educate our children and ourselves!
